

### **News from IUPUI's University Library**

In 1996, IUPUI University Library became a team-based organization.

Every so often we review the team structure and tweak it a little. This year, 2006, we have modified the structure again. David Lewis, Dean of University Library, still heads up the organization.

A new Associate Dean for Teaching, Learning and Research was added this year and Polly Boruff-Jones was appointed to this position. She is responsible for the three client teams: Liberal Arts and Music, Professional Programs, and the Science, Engineering, Technology, Informatics and Nursing as well as the Reference Team.

Dolores Hoyt is the Associate Dean for Collections, Information, and Access Group. She is responsible for the following teams: Bibliographic and Metadata Services (Cataloging), Acquisitions, Access Services, and the Digital Library Team.

Mary Stanley is the Associate Dean for Business Administration and is responsible for payroll, purchasing, personnel, and fiscal administration. Bill Orme is now the team leader for the Liberal Arts and Music Team and Mary Beth Minick is now the team leader for the Professional Programs team. In addition, we have two new Visiting Assistant Librarians for the fall semester, Jackie Osting and Christina Baich.
